# Mineral Collection

 La gamma Mineral nasce dall'unione tra un polimero altamente performante quale il Polipropilene e il Talco Micronizzato di grado alimentare, un minerale che permette di ridurre il consumo di materie prime da fonti fossili e, al tempo stesso, aumentare la durezza e la resistenza del manufatto. Composta da diverse forme e colori, si fa apprezzare particolarmente in contesti che richiedono sicurezza assoluta al contatto alimentare, infrangibilità ed estrema praticità d'uso, pur mantenendo un posizionamento di prezzo tra i più bassi della categoria. Picnic, barbecue, ristorazione commerciale e collettiva o ristorazione sui mezzi di trasporto, la gamma Mineral si fa valere ovunque servano praticità e sicurezza, specialmente dove c'è un bambino.

 *The Mineral range is born from the union between a high performance polymer such as polypropylene and food grade micronized talc, a mineral that allows to reduce the consumption of raw materials from fossil sources and, at the same time, increases the toughness and resistance of the product. Composed of different shapes and colors, these products can be appreciated especially for their absolute safety to food contact, unbreakability and extreme practicality of use, while maintaining a price positioning among the lowest in the category. Picnics, barbecues, commercial and collective catering or food truck catering, the Mineral range is the perfect fit wherever practicality and safety are needed, especially where there is a child.*

 La gamme Minéral est née de l'union entre un polymère hautement performant tel que le Polypropylène et le Talc Micronisé de degré alimentaire, un minéral qui permet de réduire la consommation de matières premières à partir de sources fossiles et, en le même temps, augmenter la dureté et la résistance de l'article. Composée de différentes formes et couleurs, elle se fait particulièrement apprécier dans des contextes qui exigent sécurité absolue au contact alimentaire, incassabilité et extrême praticité d'utilisation, tout en maintenant un positionnement de prix parmi les plus bas de la catégorie. Pique-nique, barbecue, restauration commerciale et collective ou restauration sur les moyens de transport, la gamme Mineral s'affirme partout où la praticité et la sécurité sont nécessaires, surtout lorsqu'il y a un enfant.

 *Die Mineral-Serie ist aus der Kombination eines Hochleistungspolymer wie Polypropylen und Micronized Talc entstanden, ein Mineral, das den Verbrauch von Rohstoffen aus fossilen Quellen reduziert und gleichzeitig die Härte und Beständigkeit des Polymer erhöht.*

*Die Linie besteht aus verschiedenen Formen und Farben, schätzt man es besonders in Kontexten, die absolute Sicherheit im Kontakt mit Lebensmitteln, Unzerbrechlichkeit und extreme Anwendbarkeit erfordern, während eine Preispositionierung unter den niedrigsten in der Kategorie beibehalten wird. Ob Picknicks, Grillen, gewerbliche und kollektive Verpflegung oder Verpflegung auf Transportmitteln, gilt die Mineral-Serie überall dort, wo Zweckmäßigkeit und Sicherheit gefragt sind, insbesondere dort, wo ein Kind lebt.*
