GRUPO DE LA ROCA

Craftsmanship & Innovation

At Grupo de la Roca we believe in authenticity, sustainability and artisanal excellence. Our history is based on a clear vision: to create unique products, meticulously designed and crafted with carefully selected materials. We are committed to quality, environmental responsibility and proud of our Basque heritage. Each piece is a reflection of our own work, where tradition and innovation come together to create timeless designs.

FROM ORIGIN TO REVOLUTION

Since 2021, we have transformed the hospitality industry with the world's only dishwasher-safe wooden plates, an innovation that has set a new standard in the industry. In a market where 95% of production takes place in Asia, we chose to take a different path: manufacturing in Europe. This is how Maderas de la Roca was born, with a clear mission: to offer sustainable, elegant, and functional pieces, handcrafted in Spain with FSC-certified birch wood.

Now, in 2025, we continue to expand our legacy with Porcelanas de la Roca, a new line of handcrafted porcelain that embodies the finest materials from the Iberian Peninsula. Designed for professionals seeking excellence, these pieces combine refined aesthetics with exceptional durability, elevating each table with their distinctive character and design.

More than a brand, Grupo de la Roca is a statement, where craftsmanship and innovation merge to create timeless designs, ensuring that every detail tells a story of quality and artistry.

Hasi

THE BEGINNING OF A NEW TRADITION

In the heart of the Basque Country, where craftsmanship and innovation intertwine, HASI is born, a collection that marks the start of a new story.

Inspired by our land and its richness, we present a porcelain that redefines elegance and durability, blending generations of expertise with cutting-edge technology.

Every HASI plate and bowl is a tribute to origins, designed and crafted in the Basque Country using carefully selected raw materials from the Iberian Peninsula.

This first collection not only honors our roots but also sets a milestone in contemporary porcelain: pieces that push the boundaries of durability without compromising sophistication.

Because beginning something new also means honoring what brought us here. HASI is more than a collection; it is a commitment to excellence, resilience, and timeless beauty.
